Education

Bachelor of Engineering (B.E.) - Computer Engineering

C.K. Pithawala College of Engineering, Surat

CGPA: 8.50

Work Experience

Full stack Developer Intern

Inside Infotech Solutions

January 2026 - May 2026

- Build microservices backend in python + React Js
- Utilized Python, React Js to build, test features.
- Consistently delivered on projects. Worked on Govt Websites and Created automation Tools
- Packaged Python applications into distributable executables (EXEs) and worked on Live websites.

Technical Projects

OCR voter-list Automation

[Git Repo](#)

Developed a pipeline to digitize unstructured voter records and convert them to a dynamically formatted pdf. Worked with Gemini 2.0 Flash for high-Accuracy, context-aware text extraction, reducing manual entry time and storing data in a mssql server. Integrated OpenCV for computer vision and pymupdf, pillow for image processing and structing pdfs.

Tools: Python, Tract, OpenCV, Gemini-2.0 flash, SQLite, asyncio

Internship Hunt

[Git Repo](#)

A command-line tool designed to streamline your internship search. From discovering local IT businesses via the Google Places API to extracting contact info with bs4, this tool automates the entire outreach process finding companies and sending cold emails to all with a single command.

Tools: Python, playwright, google-apis, SMTP, sqlite

Private Cloud Web-app

[Git Repo](#)

Deployed a full-stack application for personal Journal. sign-in integration using Firebase Authentication for OAuth2.0. Optimized system using Redis for low-latency session caching and SendGrid for SMTP.

Tools: React, Python-Flask, PostGreSql, Redis, Render, vercel, Firebase

Cryptographic Digital Signer Application

A secure Desktop Cryptographic Application for digital documents. Implemented PKCS#11-compliant digital signatures using hardware-based USB DSC (Digital Signature Certificates). Ensuring non-repudiation and document integrity for sensitive PDF workflows.

Tools: Python, customtkinter, pyhanko, PKCS#11, threading

Technical Skills

Languages: Python, JavaScript, SQL, HTML/CSS

Libraries & Frameworks: React-js, Flask, Tailwind, Supabase, fast-apis
